

## Problem Solving

The professor left the lab  
and wandered nearby streets.  
His experiment just wasn't working  
out the way he'd planned.  
"Perhaps there's something wrong  
with my initial assumptions?"  
He wondered to himself.

And just at that moment  
he noticed the sign  
in a window of the dry  
cleaning store he'd  
passed so many  
times before: "Work  
Done on Premises."

"Now that's the kind  
of help I need!" he realized  
and went inside to see  
how much it would cost  
for them to render  
some assistance.
