

A Republican Member of Congress Speaks about January 6, 2021

Nothing happened,
just some peaceful protesters,
tourists even;
I can play hours and hours
and hours of surveillance video
for you which shows people
wandering around
not making a fuss or
any kind of disturbance.
Riot? Insurrection? It's
just a big lie made up
to discredit Donald Trump.

Oh, and by the way,
that thing which didn't happen
on January 6, 2021?
It was all caused by FBI agents
dressed up as rioters;
busloads of them.
True, the FBI director denies it,
but if that's what happened
he would deny it,
wouldn't he?
So there's your proof.
